

# The **AGP HA10** Disinfectant Sprayer

The AGP HA10 Airless Sprayer is the perfect disinfectant sprayer designed for the first responders to professionally sanitize large areas quickly and thoroughly. The airless technology produces just the right droplet size. With higher production rates, it makes consistent disinfecting fast and easy. Being compact and weighing only 11kg means speedy deployment and greater mobility for operators.

## Suitable Areas

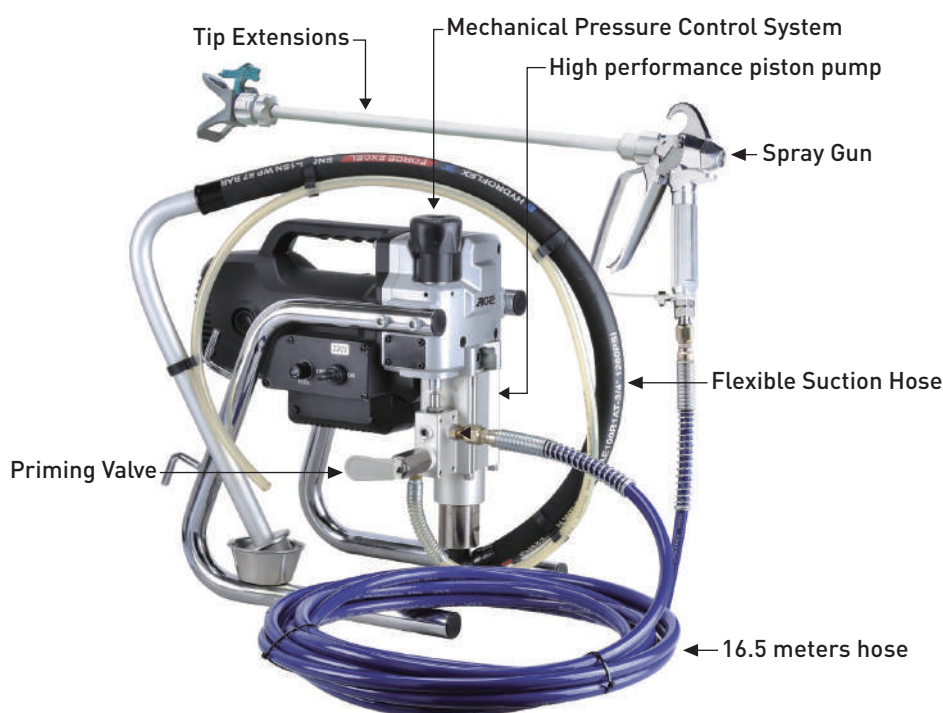

Large indoor disinfection jobs in areas like office spaces, restaurants, public transport, sanitary facilities, classrooms and more.

## Perfect For

- Health care providers
- Cleaning and sanitation providers
- Commercial and Residential facility managers
- Safety authorities

## Suggested Disinfectant Type

Water-based disinfectant materials only.

## HA10
